

# **NATURAL GAS ODOR**

## **A. IF SOMEONE SMELLS THE ODOR OF NATURAL GAS IN THE BUILDING, FOLLOW THESE PROCEDURES:**

- Evacuate the building using the fire alarm system or the best means possible.
- Call the fire department using the 911 number. The fire department has gas-detection instruments to determine the severity of the leak.
- Call the local gas company.

## **B. IF ODORS ARE DETECTED OUTSIDE THE BUILDING:**

- It is not necessary to evacuate the building.
- Evacuation is necessary only if odors seep into the building.
- Call the Fire Department's non-emergency number to report the smell. Then follow the procedures listed above.
